

## Manufacturer Material Declaration

As manufacturer:

PR electronics A/S  
Lerbakken 10  
DK-8410 Rønde  
Denmark

hereby declares that all PR electronics produced products fulfil the legislations and later amendments to included substance lists listed below according to PR Negative List:

- EU Regulation 1907/2006/EC REACH
- EPA TSCA Section 6(h) on PBT substances
- EU Directive 2018/851/EP, ECHA SCIP
- EU Directive 65/2011/EU RoHS 2 incl. EU Directive 2015/863 RoHS 3
- China RoHS 2 – EFUP 50 years
- IMO MEPC 269(68)
- EU Regulation No 1257/2013, EU SRR (Ship Recycling)
- EU Directive 66/2006/EC on batteries and accumulators and waste batteries and accumulators
- EU Directive 94/62/EC on packaging and packaging waste
- US Dodd-Frank Wall Street Reform and Consumer Protection Act, Section 1502
- EU Regulation 2017/821, the Conflict Minerals Regulation

### Additional substance information (SVHC)

Some components mounted on the printed circuit board may contain:

- Lead (CAS 7439-92-1)
- Lead monoxide (CAS 1317-36-8)

in a concentration above the threshold on the latest REACH and China RoHS 2 regulations. The substances are declared by our suppliers as a constituent of various electronic components containing glass or ceramic as they are used in the manufacturing process of these materials.

For the concerned components mounted in our finished PR product, no exposure risk exists during transport, installation, operation, or servicing of PR products.

Please see next page for a full list of product maintypes that may contain components with Lead and/or Lead monoxide.

The China RoHS 2 EFUP (Environment friendly use period) is 50 years for PR products.

Roende, July 03, 2023
